Market Area Boundaries, Description, and Market Conditions (including support for the above characteristics and trends): Market is considered within Cumming Georgia, and is bounded to the north by Hwy 20, West by Old Atlanta Rd, South by Windermere Pkwy, and East by Hwy 20. Median marketing time for single family units sold in the market is 33 days with an average of 66, pointing to steady demand for homes appropriately priced and adequately marketed. Median sales to list price was 95.86% indicating a balance of buyer and seller influence. The market consists of a variety of single family dwellings of various price points, ages, quality, and design. The area has ample access to Cumming, Alpharetta, Johns Creek, and Suwanee City Centers, and access to the Atlanta City Center. *Other* land use consists of greenspace, parks, undeveloped land, government, civic, and religious.

Summary of Sales Comparison Approach	The result of this analysis is in consideration of the compiled data addressing recent competitive sales of like homes in the subject neighborhood. The sales comparison result is representative of the most likely sale price that the subject property would achieve with adequate market exposure. Adjustments have been applied on the basis of size, quality, condition, exterior features and finishes, number of bedrooms, bathrooms, fireplaces, updates and upgrades, basement size and finishes, lot, location, parking, market conditions, conditions of sale, etc., as applicable to each comparable in relation to the subject property.
--------------------------------------	---

See attached Addendum for additional detail and subject property and comparison analysis.

Indicated Value by Sales Comparison Approach \$	1,100,000

Residential appraisal report

File No.: 26060636

COST APPROACH	COST APPROACH TO VALUE (if developed) ☒ The Cost Approach was not developed for this appraisal.			
	Provide adequate information for replication of the following cost figures and calculations.			
	Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value): The lack of completion of the cost approach			
	will have no bearing on the validity of the estimated value of the subject property. The cost approach is not relevant in determining a value in this market. Most weight is placed on the sales comparison approach which demonstrates the actions of buyers and sellers in the subject market area.			

INCOME APPROACH	INCOME APPROACH TO VALUE (if developed) ☒ The Income Approach was not developed for this appraisal.			
	Estimated Monthly Market Rent \$ <u>Na</u> X Gross Rent Multiplier <u>Na</u> = \$ <u>Na</u> Indicated Value by Income Approach			
	Summary of Income Approach (including support for market rent and GRM): Income approach was considered but not utilized due to the lack of rental			
	data and a lack of recent sales which sold while the property was rented. Without these rental sales it is not possible to generate a gross rent multiplier.			

PUD	PROJECT INFORMATION FOR PUDs (if applicable) ☒ The Subject is part of a Planned Unit Development.			
	Legal Name of Project: <u>Waterstone Falls</u>			
	Describe common elements and recreational facilities: <u>Swim/Tennis/Common amenities</u>			

RECONCILIATION	Indicated Value by: Sales Comparison Approach \$ <u>1,100,000</u> Cost Approach (if developed) \$ <u>N/A</u> Income Approach (if developed) \$ <u>N/A</u>			
	Final Reconciliation <u>While all three approaches to value have been considered. not all were utilized. Emphasis is placed on the sales comparison analysis as it best reflects actions of buyers and sellers in the marketplace.</u>			

	This appraisal is made ☐ "as is", ☒ subject to completion per plans and specifications on the basis of a Hypothetical Condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a Hypothetical Condition that the repairs or alterations have been completed, ☐ subject to the following required inspection based on the Extraordinary Assumption that the condition or deficiency does not require alteration or repair: <u>This appraisal is</u>			
	<u>completed subject to the full completion of the work that was in process at the time of the inspection.</u>			

ATTACHMENTS	Based on the degree of inspection of the subject property, as indicated below, defined Scope of Work, Statement of Assumptions and Limiting Conditions, and Appraiser's Certifications, my (our) Opinion of the Market Value (or other specified value type), as defined herein, of the real property that is the subject of this report is: \$ <u>1,100,000</u> , as of: <u>06/16/2026</u> , which is the effective date of this appraisal. If indicated above, this Opinion of Value is subject to Hypothetical Conditions and/or Extraordinary Assumptions included in this report. See attached addenda.			
	A true and complete copy of this report contains <u>31</u> pages, including exhibits which are considered an integral part of the report. This appraisal report may not be properly understood without reference to the information contained in the complete report.

Assumptions, Limiting Conditions & Scope of Work

File No.: 26060636

Property Address:	2825 Waterstone Dr	City:	Cumming	State:	GA	Zip Code:	30041
Client:	Gowthami Rapolu	Address:					
Appraiser:	Kyle Bradford	Address:	5400 Laurel Springs Parkway, Suite 108, Suwanee, GA 30024				

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS

This appraisal has been developed and this report prepared in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) and, when applicable, the appraisal requirements of Fannie Mae, Freddie Mac, FHA, VA, and any other identified intended users. The following assumptions and limiting conditions apply to this appraisal assignment:

1. Legal Matters and Title

The appraiser is not responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and will not render opinions about legal ownership or encumbrances. The property is appraised as though under responsible ownership.

2. Sketches and Surveys

Any sketch, diagram, or floor plan included in this report is intended only to assist the reader in visualizing the property and understanding the appraiser's determination of size. Unless otherwise indicated, no professional land survey was performed.

3. Flood Hazard Determination

If indicated, the appraiser has reviewed available flood maps from the Federal Emergency Management Agency (FEMA) or other sources and has noted the apparent status of the property relative to any Special Flood Hazard Area. Because the appraiser is not a licensed surveyor, no warranty is made regarding this determination.

4. Court Testimony

The appraiser will not be required to give testimony or appear in court or at any hearing because of this appraisal unless prior written arrangements have been made and appropriate compensation agreed upon.

5. Cost Approach Limitations

If the Cost Approach is included, the appraiser has estimated the site value at its highest and best use and the improvements at their contributory value. These separate valuations of land and improvements are not to be used in conjunction with any other appraisal and are invalid if so used. Unless specifically stated, this is not an insurance value.

6. Environmental and Physical Conditions

The appraiser has noted in this report any adverse conditions (including, but not limited to, needed repairs, physical depreciation, or environmental concerns) observed during the inspection or discovered through normal research. Unless otherwise stated, the appraiser has no knowledge of hidden or unapparent conditions or adverse environmental factors (including hazardous wastes, toxic substances, mold, asbestos, radon, or lead-based paint) that could affect value. This appraisal is not an environmental assessment, and the appraiser assumes no responsibility for such conditions or for any engineering, geological, or environmental testing that might be required to discover them.

7. Information and Data Sources

Information, estimates, and opinions furnished by others are assumed to be reliable. The appraiser does not guarantee their accuracy but has used such data when deemed credible and consistent with other market evidence. Automated data aggregation tools and third-party databases may have been utilized; such data are subject to verification and potential error.

8. Confidentiality

The appraiser will not disclose the contents of this report except as provided by USPAP, or as required by applicable federal, state, or local law.

9. Subject-To Conditions

If this appraisal is indicated as "subject to" completion, repairs, or alterations, the appraiser's opinion of value is based on the assumption that the work will be completed in a workmanlike manner consistent with the description provided in this report.

10. Intended Use and Intended Users

The client identified in this report is the party who engaged the appraiser. No other party acquires any rights as an intended user of this report unless specifically identified by the client at the time of the assignment. Any other person or entity obtaining this report does so without the appraiser's consent and assumes all risk associated with reliance on its contents.

11. Publication and Distribution

The appraiser's written consent must be obtained before this report or any portion of it is distributed to the public, used for advertising, marketing, or inclusion in any public or private database.

12. Nature of the Appraisal Inspection

An appraisal of real property is not a home inspection. The appraiser's visual observation is non-invasive and limited to readily observable conditions. Concealed defects or mechanical issues not apparent during this inspection are beyond the scope of the appraisal.

13. Electronic Transmission

This report may be transmitted electronically. The appraiser assumes no responsibility for unauthorized alteration, reproduction, or distribution of this report once transmitted.

14. Measurement Standard

Unless otherwise noted, Gross Living Area (GLA) and building measurements have been developed using the ANSI Z765-2021 standard.

SCOPE OF WORK

The Scope of Work defines the type and extent of research, inspection, and analysis undertaken to produce credible assignment results in accordance with USPAP.

The appraiser's scope included:

- Inspection of the subject property (as applicable), sufficient to identify its relevant characteristics;
- Research and verification of market data from recognized, reliable sources such as MLS systems, county records, and public data repositories;
- Analysis of comparable sales, listings, and market trends consistent with the intended use of this report and expectations of participants in the subject market.

The depth of research and reporting is consistent with that performed in similar residential assignments for the same intended use, intended users, and type of value. Reliance upon this report by any party other than those identified as intended users, or for any purpose other than the stated intended use, is strictly prohibited.

The opinion of value expressed herein is valid only as of the effective date of this report and within the context of the stated assumptions, limiting conditions, hypothetical conditions, and extraordinary assumptions, if any.

The appraiser, the appraisal firm, and all related parties assume no liability for unauthorized use, alteration, or reliance on this report or its conclusions.

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The analyses, opinions, and conclusions are my own personal, impartial, and unbiased professional work, and the credibility of this report for its stated use by the stated user(s) is limited only by the reported assumptions and limiting conditions.
3. I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
4. I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
5. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
6. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
7. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) that were in effect as of the date this report was prepared.
8. I did not base, either partially or completely, my analysis and/or the opinion of value in this report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property, or of the present owners or occupants of properties in the vicinity of the subject property.
9. Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification.
11. I have not performed any services, as an appraiser or in any other capacity, regarding the subject property within the three-year period immediately preceding acceptance of this assignment.
12. This appraisal assignment was completed in accordance with applicable federal, state, and GSE guidelines, and the results are my independent professional judgment.

DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated;
2. Both parties are well informed or well advised and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition is adopted from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989-as jointly issued between July 5, 1990 and August 24, 1990 by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), Office of Thrift Supervision (OTS), and the Office of the Comptroller of the Currency (OCC)-and reaffirmed in the Interagency Appraisal and Evaluation Guidelines dated October 27, 1994

APPRAISER'S CERTIFICATION

I certify that, to the best of my knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
3. I have no present or prospective interest in the property that is the subject of this report, and no personal interest with respect to the parties involved.
4. I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
5. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
6. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
7. The analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal Practice (USPAP) in effect as of the date of this report.
8. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
9. Unless otherwise indicated, I have personally inspected the property that is the subject of this appraisal.
10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person signing this certification.
11. This appraisal was developed in conformity with the Georgia Real Estate Appraiser and Appraisal Management Company Classification and Regulation Act, the Rules and Regulations of the Georgia Real Estate Appraisers Board, and USPAP.
12. The appraiser has performed all aspects of the valuation process free from undue influence or pressure.
13. The appraiser has not performed any services regarding the subject property, including-but not limited to-appraisal or consulting services, within the three years preceding acceptance of this assignment.

MARKET CONTEXT AND EXPOSURE TIME

The County records indicate that foreclosure activity has stabilized over the past several years. Historically, elevated foreclosure levels contributed to increased inventories and downward pressure on prices. While foreclosure activity remains a factor, it represents only one of several market influences, including broader economic conditions. The comparable sale selection reflects arm's-length

Supplemental Addendum

File No. 26060636

Property Address	2825 Waterstone Dr					
City	Cumming	County	Forsyth	State	GA	Zip Code 30041
Lender/Client						

transactions, foreclosure resales, and other distressed sales to appropriately represent current market trends.

The estimate of market value for the subject property assumes a **reasonable exposure time of one to three months**. This estimate is based on a reconciliation of closed sales within the grid, additional relevant sales considered but not included in the grid, and the appraiser's professional experience and knowledge of the local and competing markets.

GENERAL PURPOSE APPRAISAL CONDITIONS

This appraisal has been prepared using **General Purpose Appraisal Report (GPAR)** standards to develop an opinion of market value as of the date of inspection. If subsequent disputes, reinterpretations, or disagreements arise, users of this appraisal agree that the appraiser's liability shall not exceed the fee received for completing this assignment.

Acceptance of, and/or reliance upon, this appraisal report constitutes acceptance of these stated conditions.

INTENDED USE AND INTENDED USER

The **intended user** of this appraisal report is the **client named in this report**.

The **intended use** is to evaluate the property that is the subject of this appraisal for personal purposes, subject to the stated scope of work, purpose of the appraisal, reporting requirements of this form, and the definition of market value.

No additional intended users are identified by the appraiser.

The **scope of this appraisal** is to estimate the market value of the subject property as of the date of inspection. This includes both interior and exterior inspection of the subject improvements (where applicable), visual observation of accessible areas, and comparison with similar properties that have sold within the past twelve months. The appraiser is **not a home inspector**, and the inspection was non-invasive, limited to areas readily accessible and observable.

The purpose of this appraisal is to assist the client in evaluating the property for the stated intended use.

Data Verification Disclosure

The appraiser personally measured the subject property during the onsite inspection in accordance with ANSI Z765-2021, as required by Fannie Mae and Freddie Mac. For comparable properties, appraiser-verified measurement data obtained from reliable professional databases, such as CompFlo (www.compflo.com) with greatest emphasis given to those defined as CompFlo - *Primary*, which represents data of onsite measurements performed by licensed appraisers.

When appraiser-measured data are not available, secondary sources-including county tax records and MLS data (FMLS/GAMLS)-are reviewed with appropriate scrutiny and used for comparison purposes only. Public records in this market frequently report Gross Building Area (GBA) rather than Gross Living Area (GLA) and may include finished below-grade areas, which are not permitted to be reported as GLA under FNMA and ANSI standards.

This verification and reconciliation process is intended to promote consistency, accuracy, and compliance with FNMA measurement requirements across the subject and comparable properties.

Property Address	2825 Waterstone Dr					
City	Cumming	County	Forsyth	State	GA	Zip Code 30041
Lender/Client						

ACCURACY OF PHYSICAL DATA

Public record data in this market area are often inaccurate. Reported **Gross Living Area (GLA)** for both the subject and comparable properties may differ from public record data by more than 10%. The measurements of the subject property reported herein were developed by the appraiser in accordance with the **ANSI Z765-2021 Standard**, as required by Fannie Mae and Freddie Mac.

The GLA in this report was derived from actual on-site measurements by the appraiser as of the effective date of the appraisal and may differ from the figures reported in county or tax assessor records. In the Atlanta market, assessor data typically reflect **Gross Building Area (GBA)** rather than true **GLA**. GBA figures may include unheated or non-livable spaces such as garages, two-story open foyers, unfinished basements, or detached structures.

Differences between reported GLA and public record data are common and primarily due to these definitional and measurement inconsistencies.

Appraisal fee disclosure: 750.00

The subject property is a six-bedroom, four-bath single-family residence containing 4,490 square feet of above-grade gross living area. The property also includes a 1,994 square foot basement, which was considered 100% finished by the appraiser. Additional features include a two-car attached garage, covered front porch, wood decks, one fireplace, rear fencing, and a basement kitchen with basement bedroom and bathroom functionality.

It is also important to note that the second-floor bonus room was considered a full bedroom by the appraiser. This room has a window, a closet, and direct access to a bathroom. Based on these characteristics, it was considered functional as a bedroom within the appraisal analysis.

The property was considered to be in good condition at the time of inspection. It is situated on a 23,087 square foot site within the Waterstone Falls subdivision. At the time of inspection, the owners were completing extensive updates to the home. These updates were considered in the appraisal analysis. Notable improvements included LVP/manufactured hardwood flooring throughout all levels of the home, new carpet in the bedrooms and on the main level, updated fixtures, interior and exterior painting, landscaping improvements, and painted kitchen cabinetry. While these updates enhance the overall appeal of the property, they appear to be more cosmetic and aesthetic in nature rather than full-scale renovations of the kitchen, bathrooms, or major systems.

The lot topography is generally consistent with homes in Waterstone Falls. However, the rear slope of the subject site is more pronounced. Due to the steepness of the rear yard, the home does not have a typical deck-and-patio configuration. Instead, the property has two decks, with the lower basement-level deck positioned approximately three feet above grade. This is an indication of the degree of slope along the rear portion of the site. While this condition is not uncommon in the market area, it may be viewed as somewhat limiting by some buyers when compared to properties with more usable rear yard areas, patios, or pool sites.

Waterstone Falls is located within the broader market influence area of Windermere, a large golf course community in Forsyth County, Cumming, Georgia. Although Waterstone Falls is not part of Windermere, its close proximity provides a similar locational influence and market appeal. This was considered beneficial. As a result, no location adjustments were applied solely based on whether a comparable was located within Windermere, Waterstone Falls, or another nearby competing subdivision.

Supplemental Addendum

File No. 26060636

Borrower	Gowthami Rapolu					
Property Address	2825 Waterstone Dr					
City	Cumming	County	Forsyth	State	GA	Zip Code 30041
Lender/Client						

Comparables One through Three are all located within the Windermere subdivision and closed within 30 days of the effective date of the appraisal. These sales provide the strongest indication of the current market for large homes in the immediate area. They also reflect a broad range of price points, from \$999,999 to \$1,395,000, which helps bracket the subject's market position.

Comparable One was adjusted for site size and seller-paid/excessive closing costs. This property is a four-sides brick home and was considered more dated than the subject property. It has smaller above-grade living area, smaller finished basement area, a three-car attached garage, a sunroom with covered patio, and no basement kitchen. This comparable also has direct golf course views, for which an adjustment was applied.

Comparable Two was adjusted for site size. This property was considered to be in superior condition and has been more extensively updated than the subject, including full kitchen and bathroom renovations. It also includes a luxury pool and spa, a four-car attached garage, basement wet bar, and superior exterior amenities. Overall, this sale represents a superior property and was adjusted accordingly.

Comparable Three is also located in Windermere and was considered more dated than the subject property. Adjustments were applied for site size, excessive closing costs, smaller above-grade living area, the presence of a three-car attached garage, and a basement wet bar. This sale remains relevant due to its recent sale date, proximity, and similar market appeal.

Comparable Four is located in the Balmor subdivision, a gated community less than one mile from the subject property. This property was adjusted for its substantially larger 1.79-acre site and for excessive closing costs. It was also considered more dated than the subject. The property has smaller above-grade living area, a luxury pool and spa, and a basement wet bar. The appraiser considered the property's gated community appeal and its location just outside the immediate Windermere influence to be generally offsetting factors.

Comparable Five is located on the same street as the subject property and sold in May 2025. At the time of the appraisal, the appraiser did not have access to the prior listing photos within the FMLS system. However, the appraiser was able to review the available marketing remarks and listing materials to determine the overall condition, quality, and amenity level of this comparable. Due to its same-street location and overall relevance, it was included in the comparable selection. This property was considered to be more extensively updated than the subject and includes a wood deck, covered/enclosed ceiling patio, basement wet bar, and media room. Overall, Comparable Five was considered superior to the subject in quality, condition, and amenities.

Comparable Six was included to show potential competition within the \$1,200,000 to \$1,250,000 price range. This property is located approximately one mile from the subject in the gated Estates at Dave's Creek community. It is new construction and was adjusted for above-grade living area and lack of a basement. No weight was given to this comparable in the final reconciliation. It was included primarily to show the report reader what competing options are available in the upper price segment of the market.

The adjusted sales price range is relatively tight and provides reasonable support for the final opinion of value. While the subject property has been updated, the improvements are not considered equivalent to full renovations and may not receive the same contributory value in the marketplace as more comprehensive kitchen, bath, and system renovations. The subject's steep rear topography, overall quality, condition, and amenity level were also considered in the final reconciliation. Based on these factors, the final opinion of value was concluded toward the lower end of the adjusted range.
